Jigsaw Puzzle by Pexels, from the Premium Image Collection

The very first jigsaw puzzle was invented in early 1800s by Pierre-Auguste Renoir. Jigsaw puzzles are a great activity for all ages. The goal is to figure out how to put the pieces together correctly. To make this easy, you remove some of the puzzle pieces and they are grouped in a separate box. This way you need to put each piece and determine how you will put them on the board. More than jigsaw puzzles, this is a great activity to relax and unwind after a stressful day.
